Sherin Muckatira

SherinBojappa | Google Scholar | Linkedin | sherinbojappa | sherin2013007@gmail.com | 602-625-3324

Education

University of Massachusetts — Lowell, Massachusetts
Ph.D. in Computer Science; GPA 4.00 — September 2021–Present
Advisor: Prof. Anna Rumshisky

Arizona State University — Tempe, Arizona
Master of Science in Electrical Engineering; GPA 3.79 — August 2011–May 2013

Sir M Visvesvaraya Institute of Technology — Bangalore, India
Bachelor of Engineering in Electronics and Communication; GPA:4.00 — September 2007–July 2011

Reserach Experience

University of Massachussetts — Lowell, MA
Research Assistant, PI: Prof. Anna Rumshisky — May 2023–Present

- Study how language-model capabilities emerge during pre-training, with a focus on training dynamics, generalization, memorization, and learned representations.

- Pre-trained and analyzed Transformer language models across multiple scales to investigate when linguistic capabilities emerge and how they relate to data exposure.
- Developed data-centric evaluation methods for LLM reasoning, including benchmarks for mathematical problem solving and recognizing incremental progress toward solutions.
- Developing and testing efficient pre-training methods that reduce computational cost without sacrificing performance.
- Research spans LLM pre-training, evaluation, model interpretability, efficient training, and reasoning; published at NAACL, EMNLP, AACL, ICLR, and LREC-COLING.

Amazon Boston, MA
Applied Scientist Intern, PI: Dr. Rinat Khaziev May 2025–August 2025

- Developed multilingual evaluation methods for large language models, studying model quality beyond English.
- Built and trained LLM judge models for evaluating multi-turn conversations across languages.

Amazon Remote
Applied Scientist Intern, PI: Ikkei Itoku May 2024–August 2024

- Built a synthetic-data generation pipeline for domains with limited and privacy-sensitive training data.
- Created structured training datasets and fine-tuned Mistral-7B-Instruct for document understanding and guideline identification.

Arizona State University Tempe, AZ
Research Aide, PI: Prof. Jieping Ye July 2012–May 2013

- Implemented Gene expression pattern annotation using SIFT feature extraction on images in the Berkeley Drosophila Genome Project (BDGP).
- Constructed Codebooks using Bag of Words and Sparse Coding Approach.

Other Industry Experience

Qualcomm Boxborough, MA
Senior Software Engineer October 2016–December 2021

- Developed firmware for the physical layer of Wireless LAN chips using the Wifi 802.11 protocol.
- Designed and implemented features such as Spectral Scan and Radar Detection.

NXP Chandler, AZ
Applications Software Engineer June 2013–October 2016

- Developed signal processing applications for radio communication, focusing on transmit and receive chains on a Vector Signal Processor for Power Amplifier characterization.
- Implemented communication interfaces between host processors and co-processors to enhance functionality in Power Amplifier characterization applications.

Teaching Experience

Deep Learning for NLP; Spring 2026 - Prepared quizzes and graded exams.
Deep Learning for NLP; Spring 2025 - Led lectures on transformers, pre-training, post-training and graded exams
Computing 1 Lab; Fall 2022, Spring 2023 - Led lab sessions on C programming and provided student mentorship.

Skills

Python, Pytorch, sklearn, Machine Learning, Deep Learning, NLP, Huggingface Transformers, generative AI, pre-training, fine-tuning, prompting, zero-shot/few-shot evaluation, Synthetic Data Generation, LLM-as-Judge, Parameter Efficient Fine Tuning, Large Language Models, C, C++, Perforce, Git, Matlab, Embedded Systems, Signal Processing, Data Analysis, Software development
